

Environmental Science Scholarship

Dr. Theresa Bert, alumni SVHS class of 1967, is offering a \$500 scholarship to a student who is planning to major in Environmental Science/Conservation. The graduating senior qualifies if the following criteria are met:

- Planning to attend a four year college/university majoring in Environmental Science/Conservation, focusing on conservation and preservation of wildlife (terrestrial, freshwater, or marine).
- Minimum of a 3.0 G.P.A. and minimum ACT score of 20
- Student must have taken or be enrolled in at least one honors level Math course and one honors level Science course

To apply for this scholarship please prepare a brief report containing the following information:

1. Your name and address
2. ACT and/or SAT scores
3. Copy of St. Vincent High School Transcript
4. Two letters of recommendation-at least one from a Math or Science teacher
5. Essay 500 word maximum-What has inspired you to improve our environment through the study of science? Using what you have learned about environmental science through your studies, how would you use your college education to improve our environmental depletion?

Please sign and return your report to the counselor's office no later than April 15, 2011.
